## EDUCATION

GLA University, Mathura

Bachelor of Technology in Computer Science (Expected Graduation: 2026)

Data Structures Algorithms, Object-Oriented Programming, Database Management System, Web Development, MERN

---

## WORK EXPERIENCE Freelance Full Stack Web Developer

Developed and delivered custom portfolio websites for clients using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Collaborated with clients to understand requirements and deliver tailored, end-to-end solutions.

Utilized front-end technologies including HTML, CSS, JavaScript, and Tailwind CSS to create dynamic, responsive, and visually appealing websites.

Managed project timelines and maintained regular client communication to ensure successful delivery

---

## PROJECTS

### Blog Website with User and Admin Profiles (MERN Stack)

- Developed a full-stack blog website with authentication and authorization features.
- Technologies: MongoDB, React.js, Node.js, Express.js
- Integrated MongoDB for database management and efficient data handling.
- Implemented user login/signup functionality with separate user and admin profiles.
- Created an admin dashboard for blog management with secure role-based access control (RBAC).

### Hotel Management System

- Integrated real-time revenue tracking to monitor earnings, booking trends, and occupancy rates.
  - Enabled image uploads for hotel and room listings, allowing admins to maintain an up-to-date visual catalog
  - Implemented personalized notifications for booking confirmations and updates, enhancing user engagement.
  - Designed responsive layouts for user and admin panels to ensure seamless access across devices.
  - Optimized booking processes for speed and reliability, minimizing user wait times and enhancing user experience.
  - Secured the application with authentication and role-based permissions, ensuring data privacy and appropriate access control.
- 

## TECHNICAL SKILLS

- **Web Technologies:** HTML, Bootstrap, Tailwind CSS
  - **Languages:** Java, JavaScript, Python, C
  - **Web Technologies:** HTML, CSS, Bootstrap, Tailwind CSS
  - **Frameworks:** React.js, Node.js, Express.js
  - **Databases:** MongoDB
  - **Tools:** VS Code, IntelliJ, Git
- 

## HONORS AND AWARDS

- Solved 500+ problems on CodeChef, LeetCode, HackerRank, GFG

## EXTRA CURRICULAR ACTIVITIES

- Member of the university coding club, participating in workshops and collaborative projects.
- Volunteered for tech-related community events, providing mentorship to junior students.
